

# Accessibility Statement

**Last Updated:** April 2026

The Fiduciary Institute is committed to ensuring digital accessibility for people with disabilities. We are continually working to improve the user experience for all learners and visitors and to meet or exceed the relevant accessibility standards.

## Our Commitment

We aim to make our website and learning platform accessible and usable by all people, regardless of ability. To achieve this, we strive to follow the Web Content Accessibility Guidelines (WCAG) 2.1 Level AA, which provide recommendations for making web content more accessible for individuals with disabilities.

## Ongoing Efforts

- We design and develop our website with accessibility in mind, including considerations for screen readers, keyboard navigation, and color contrast.
- We review our site regularly to identify and correct potential accessibility barriers.
- We provide training and resources to our team to support accessibility best practices.

## Learning Platform

Our courses are hosted on Thinkific, a third-party learning management system. Thinkific maintains its own accessibility standards and practices. While we work to ensure our course content is accessible, the underlying platform functionality is managed by Thinkific. Information about Thinkific's accessibility efforts is available through their website.

If you encounter an accessibility barrier while using the learning platform, please contact us so we can work to provide the content in an alternative format or escalate the issue as appropriate.

## Third-Party Content

While we aim to ensure accessibility across our site and learning platform, we cannot guarantee the accessibility of third-party content, embedded media, or features that we do not directly control.
